Cc: jthompsonprofessional0376 <jthompsonprofessional0376@gmail.com>, OPEN RECORDS KORA <korareq@louisville.edu>

For its response to the Notice of Appeal dated November 15, 2024, Log #202400467, the University of Louisville submits that the open records request was misdirected and never received by the Open Records team. Upon notice of the open records appeal, a copy of the report was promptly provided.

Mr. Thompson stated that he was instructed to send his open records request to KORA@louisville.edu (attachment #14 p. 3) but instead he sent it to korarequest@louisville.edu (attachment #9) As soon as the Open Records team was aware of the request, steps were taken to provide the responsive record. A university official confirmed over the phone that Mr. Thompson has received the document.

Finally, the University submits this letter in response to the Notice of Appeal with the understanding that the requestor included allegations of violations of university policy. The University notes that these allegations are outside the scope of this appeal and reserves the right to respond to such allegations through the appropriate process.

Let us know if you need any additional information.

Dear Cindy ,

It is nice to know here , and I can indeed confirm where , that the University of Louisville , Submits to having their police report record being misdirected ,
By four officers ,
Which in fact happened on more than four occasions , in person , and involved a questionable amount of Officer Harassment towards the end. - in regards to UofL police.

These. may include some more responses from me in the future , you may be hearing me for a few more open records requests , around tape from the claim I am making about a threatening officer in the station towards me, at a different time in the future.

But for this here ,

In regards to the Open Records Request , Log# 202400467
I have received my report after a lengthy discussion with a Officer Hamilton ,
over a phone call on the morning of 11 / 20 / 2024 .
and we , finally , (after a little argument and me calling them back to speak) we had nicely actually ended the call on a good note between each other
, after he had
found and sent me a request , which I already had filled at the time , I was able
to quickly and expeditiously get the specific records , here I requested , on that day of my police report.

Please let the record of my request reflect however that ,

Sgt. Hamilton , Whom I spoke with on the phone yesterday , was better to work with, yesterday , on 11/20/2024 than 4 or 5 of the officers I had previously spoken with , more so ever than before - Which was several occasions at this point.

And please also let the record reflect that ,
I had a pattern of neglect around the processing of a basic police report , involving an investigation of myself , when I had gone back to the very station , unto which I was brought too , and interviewed around a formal investigation .

And Also Let the Record Reflect here in the report , that I am disputing one, small but kinda , great and key detail ,
- that is completely and blatantly wrong on this report,
where it says , I am not associated with the university ,

I TOLD this directly to Officer Robinson during the Investigation ,
- and to make things clear and easy on us on that note , you may expect an open records request from me soon around that ,
around the needs of me needing to have a *concern around a one-sided or even falsely misleading report.*

*--- I dont honestly feel safe going back to the police station after the way Lt. Minor Verbally and Lawfully Threatened me , in a Over Intimidating way
clearly out of control and disregarding my own safety and basic processing. I ALMOST GOT RAN OVER BY ONE OF THEIR CARS ONE TIME TOO.
- I can point out that officer and the date and time as well , I would love too.*

Because ,
The Truth is , Is that I was a student of UofL and I am also a Registered Supplier and Vendor of UofL ,
(I have certificates and prior credentials and supplier registration and a large amount of proof , and validity to offer on that subject.)

Now , what I can deduce , is Officer Robinson is not a bad cop , but that's just not what I said in the investigation at the time -
AT ALL, but just on that one detail , I am absolutely associated with UofL , that is a joke to me.

---- The rest of the report however ,
It seems pretty accurate too me, and is well covered.

Check it out , because it contains even more revealing facts , containing a case I will soon be presenting to the AG ,
as per directions of an Officer at UofL Police on some KRS laws . -

(See Attached Report)

-

Lastly , I would just like to explicitly thank the Open Records Office at the Kentucky Attorney Generals Office under Mr. Coleman ,
for finally giving me giving me my dignity back around this matter ,
my report ,
and the evidence I had been trying so desperately and dearly to get to proceed with some of my claims in the future, of what I , at one time perceived , and then confirmed in sorts , to be a large potential Cybersecurity related complexity of an issue at UofL at this point ,
and I have evidence to back that up , and of what exactly I was trying to point out , especially now after your help !

This entire process has been extremely difficult with UofL , and UofL Police now as a whole, I have walked there and spoken with many people there around this Issue , - It would be easier to find out who I HAVE'NT asked about , or brought this attention too and asked for feedback, so I am trying to not acting entirely only off of my own concerns in some of these matters, or make any irrational claims.

My investigation here specifically , is honestly too lengthy to even briefly begin ,

The only thing I would like to make absolutely crystal clear at this point , is how **absolutely grateful I am in this matter**
for the help and Assistance of the Attorney General in this matter and the timely resolution around my needs around Open Records Requests .

Upon further investigation and consideration , I can confirm with relative surety and accuracy that ,
Without the help of the AG in this matter , I would have gotten absolutely , positively , nowhere to get a basic police report , from a police station , that is supposed to protect students , at a government funded university .

This is a scary thing in a way honestly , and that was reality for a bit for me ,

but I just want to say how much your office has helped me proceed with my larger case there.

p.s. ,Here is 3 fun facts about this case.

#1.

At the end of the report , where it says ,
 " She will take out a warrant next time if she wishes , "

She , My teacher in this case , (Ms. Lakiesha Jones) messaged me a few days after this ,
 inviting me to respond to her around class needs , after ignoring me
 and I have proof !

- So I am also looking for all the general guidance I can get on that matter and some other specifics around
 clearly established UofL policy breaches as well.

#2 . The only funny thing about the message above is ,
 well , neither of those emails are correct I believe actually.

The corrected email , was supposed to be

korareq@louisville.edu ,

(I think) , as you can see that in this email.

#3 , In a strange turn of events , I actually now need this report to help fill a IT support ticket , for Main IT as well , Whom I
 had promised and we agreed to find a resolution on an ongoing issue , and as a professional , that's what I intend to do
 as a legitimate professional courtesy to the University as well,
 as I intend to Honor their request made there.

So back to my basic Open Records Request for Log# 202400467, you guys have helped me get my record within
 what I believe the be the timeframe of the law that the AG made clear to both parties fairly.

So therefore , I would like to not need too proceed with a Open Records violation of ,
 this specific request of my Open Records ,
 for the police report , Log# 202400467 , because of that.

Thank you again so very much !

Sincerely , Jacob R. Thompson.
